EXPERIENCE

Full Stack Software Developer

Tangle Media Inc.

December 2021 – September 2025 Lethbridge, Alberta, Canada

- Engineered a reusable Hugo UI component library of 25+ standardized, tested components, **accelerating front-end development by 25% and reducing UI-related bugs by 15%**.
- Developed and deployed 15+ multilingual, accessible websites, achieving Lighthouse performance scores above 95 and full WCAG compliance.
- Designed and built 15+ admin dashboards with Svelte, Vue, and React, reducing average content publishing time from 30 minutes to under 10 minutes.
- Executed data migrations for 30+ legacy databases (over 5 TB of data) with zero data loss under 1 hour of downtime per client, **completing all migrations 20% ahead of schedule**.
- Implemented CI/CD pipelines (Netlify/CircleCI), automating 90% of manual deployment tasks, **cutting production errors by 75%**, and reducing average deployment time from 2 hours to 10 minutes.
- Managed cloud infrastructure (WHM/DigitalOcean/Better Stack) for 50+ client sites with content management systems, **improving system uptime from 99.5% to over 99.95%**.
- Instituted a peer review process that caught an average of 8 potential bugs weekly before they reached QA, **improving code quality and reducing QA backlog by 30%**.
- Leveraged AI-assisted development tools (Cursor) to **accelerate development by 15% and reduce debugging time by 30%**.

Software Developer Intern

HelpUsDefend

May 2021 – January 2022 Toronto, Ontario, Canada (Remote)

- Defined backend requirements for a new advocacy platform, **shaping technical architecture and reducing initial technical debt by 25%** through proactive planning.
- Built a proof-of-concept Flutter mobile app with TensorFlow Lite AI camera integration, **achieving 95% accuracy in image recognition tasks** during initial testing.
- Collaborated with cross-functional teams in 4 agile sprints, contributing to the design and planning of 5+ core platform features.

Web Developer Intern

Interfaith Food Bank

February 2019 – August 2020 Lethbridge, Alberta, Canada

- Designed and launched a volunteer registration tool on WordPress, engaging 1,000+ unique users and **increasing volunteer sign-ups by 35%** within the first 6 months.
- Authored 15+ pages of user and technical documentation and resolved 20+ critical UI issues, improving user experience and long-term maintainability for the organization.

EDUCATION

Bachelor of Science in Computer Science (Minor: New Media)

University of Lethbridge

September 2019 – June 2023 Lethbridge, Alberta, Canada

Associate Degree in Computer Information Technology

Lethbridge Polytechnic

September 2017 – April 2019 Lethbridge, Alberta, Canada

SUMMARY

Full-Stack Developer who accelerates development by 25% through reusable component libraries and cuts production errors by 75% with automated CI/CD pipelines. Modernized 30+ legacy databases with zero data loss and built 15+ accessible, high-performance websites scoring above 95 on Lighthouse. Leverages AI tools to enhance productivity and seeks a role to build impactful, customer-obsessed products.

CERTIFICATES / COURSES

Full Stack Software Developer Career Certificate

IBM September 2025

AI Engineering Career Certificate

IBM July 2025

Artificial Intelligence (AI) Primer Course

ECO Canada February 2025

SKILLS

- Visual Studio Code
- TypeScript/JavaScript
- Git with Github/Bitbucket
- Python with Django/Flask/FastAPI
- PHP with Laravel
- Java with Spring Boot
- HTML with CSS/SCSS
- React with Next.js & Redux
- Vue.js with Nuxt
- Svelte
- Node.js with Express
- Apollo GraphQL
- MySQL/PostgreSQL/MSSQL
- MongoDB
- Redis
- Docker
- Netlify/CircleCI
- Amazon Web Services
- Google Cloud Platform
- Azure
- Content Management System (CMS)
- Payment Integration (Stripe)
- Social Media Integration (Youtube, Instagram)
- Jira
- Slack
- Playwright/Mocha/Jest
- Tensorflow
- LangChain & LangGraph
- React Native
- Flutter
